Organization Structure

3

Sales Partner Agreement with ScanReach AS

ScanReach was founded in 2015 with the mission of developing affordable and user-friendly live lifesaving technologies for vessels and offshore installations, in particular for Personnel On-Board (POB) Control.

ConnectPOB for instant personnel on-board control (POB), allowing immediate and high precision rescue team involvement.

Addition to real-time location of personnel connectPOB can be expanded to cover additional valuable services such as:

- Safety alarm on bracelet.
- Virtual area barriers.
- Area access control.
- Area responsible support for work permits etc.
- «Man-over-Board»-functionality.

In:Connect for instant wireless connectivity, enabling easy data harvesting and transfer in confined steel environments such as ships and rigs.

Cooperation Agreement with Boatlabs AS.

FMEA/ FMECA analysis for DP1, DP2 and DP3, supply vessels, AHTS, construction vessels, well intervention units, mobile offshore units, diving vessels, oil rigs, Crane, Winch, Tower, Gangway, Carousel, VLS, HLS, FDS, ROV etc.

- FMEA Review, Verification, Addendum, GAP, FMEA Proving Trials, etc.
- IMCA Annual DP Trials & IMCA CMID Inspections.
- DP Operation Manuals & Checklists (incl. ASOG, CAMO, TAM)
- Incident Investigation & General consultancy work and advisory services
- Stability Supervision & Services
- Project Management.
- Transit Planning and Attendance.
- 3rd Party Audits / Reviews & On / Off Hire Surveys.
